Introduction

The ICD Internship Project (2008-17) is a 10 year program with the main purpose to enable students who need an internship as a compulsory part of their BA or graduate studies to engage in cultural diplomacy and in doing so, to further promote cultural diplomacy and multiculturalism worldwide.

The positioning of the ICD in the center of Europe, makes it a natural hub for the younger generation and indeed, the past years of the project have been witness to interns being active participants in the multicultural field, where lasting friendships were formed and valuable contacts made, which immediately expanded each individual’s network to all parts of the world.

The diverse multicultural environment provides an excellent framework for Cultural Diplomacy to be practiced on a daily basis within the office as well as outside of the office. One of the main privileges afforded by the project is to work in a young, interdisciplinary and international environment, which serves as a model of successful multiculturalism in practice. The experience of learning to work together in a multicultural and international organizational environment is a rare, unique and a rewarding common experience.

The ICD invites applications from individuals who are coming from the following fields:
