Dear Commissioner,

I refer to your letter of 11th August 1998, in which you mentioned the need for a comprehensive review of the EC's competition policy. I agree with your comments and would like to add a few points of my own.

Firstly, I believe that the current approach to competition policy is too narrow. It focuses too much on the concept of 'horizontal' competition, overlooking the importance of 'vertical' competition. I think we need a more balanced approach that takes into account both types of competition.

Secondly, I am concerned about the growing trend towards conglomerates, which are able to engage in 'predatory' and 'anti-competitive' practices. We need to find ways to prevent this.

Lastly, I would like to express my concern about the increasing number of mergers and acquisitions in the market. This leads to a reduction in competition and can have negative effects on consumers.

I hope that these points will be taken into account in the future review of the EC's competition policy.

Yours sincerely,

[Your Name]
